10 Units in 12 months = \$25k

15 Units in 12 months = \$50k

20 Units in 12 months = \$75k

25 Units in 12 months = \$100k

Simple Theoretical Example

If 25, Franchise Units were sold within 12 consecutive months, you would make a \$100,000 Bonus, a \$250,000 Broker Fee and a \$62,500 10% Royalty (Assuming the units made an average of 500k per year).

$250K \times 10\% + ((25 \times 500K \times 5\%) + 100K) = \$412,500$ Yearly Franchise Broker Earnings
